

## IITIIMJobAssistant

### (Phase 1 – LinkedIn Job Post Agent)

DATED: 19<sup>th</sup> Apr 2026

**Project Details:** IITIIMJobAssistant – Phase 1

**Engagement Type:** Freelance

**Total Project Value:** ₹30,000

---

### **Milestone 1: Authentication & LinkedIn Verification (Verify from admin portal)**

#### **Scope**

- Implement Google OAuth sign-in and standard email/password login
- Capture user's LinkedIn profile URL at signup as a mandatory field
- Allow access only to verified IIT or IIM students and alumni; reject all others with a clear rejection message
- Store the verified institute, program, and graduation year against each user record
- Persist a verification audit log (URL, parsed text, decision, timestamp) for every signup attempt
- Route borderline / failed scrapes to the admin approval queue for manual review

#### **Deliverables**

- Google OAuth + email/password login flow
- LinkedIn education scraper with IIT/IIM whitelist matcher
- Signup screen that rejects non-IIT/IIM users with a polite message
- Verification audit log in database (URL, parsed data, decision, timestamp)
- Pending-approval state for users awaiting admin review
- Documentation

(+91) 8587-030276  
(+91) 9599-062587

hello@ mkixventures.com  
mkixventures.com

New Delhi, Delhi,  
110003

### Acceptance Criteria

- 100% of signups are gated by the LinkedIn education check before any paid access
- Verification completes in under 30 seconds for at least 90% of attempts
- Zero non-IIT/IIM accounts can bypass verification during QA testing

| Payment |          |
|---------|----------|
| Amount  | ₹4,000   |
| Hours   | 8-10 hrs |

## Milestone 2: LinkedIn Job Post Agent

A three-part agent that converts each target LinkedIn job post into real conversations and real applications. Milestone 2 is broken into sub-milestones 2.1, 2.2, and 2.3 — each with its own scope, deliverables, acceptance criteria, and payment.

### 2.1 Send Connection Request & DM on LinkedIn and Reply (Using Linkup APIs)

#### Scope

- Identify the hiring manager / recruiter attached to each target LinkedIn job post
- Send personalised connection requests with a short note referencing the role and user's background
- Follow up with a personalised DM once the connection is accepted, using resume + JD + profile context
- Auto-reply to recruiter responses using an LLM, with tone matched to the user's writing style
- Escalate complex / high-intent replies (interview offers, scheduling, screening) to the user's inbox
- Throttle sends well below LinkedIn per-day safety limits and humanise pacing between actions

(+91) 8587-030276  
(+91) 9599-062587

hello@ mkixventures.com  
mkixventures.com

New Delhi, Delhi,  
110003

- Run entirely through the user's own LinkedIn session (OAuth / cookie-based), never a shared account
- Track connection accepted, DM sent, reply received, and conversation state per lead

### Deliverables

- Recruiter / hiring-manager resolver from LinkedIn job posts
- Personalised connection-request + DM template engine (LLM-driven)
- Auto-reply engine with escalation rules for high-intent messages
- LinkedIn session integration with humanised pacing and guardrails
- Conversation tracker (connection → DM → reply → escalation) in the dashboard
- Kill-switch to pause all LinkedIn activity for a user within 30 seconds
- Documentation

### Acceptance Criteria

- Daily LinkedIn actions stay under 60% of LinkedIn per-account safety limits
- Zero user account suspensions during a 14-day soak test across pilot users
- Reply tracking is live in the dashboard and updates within 10 minutes of a reply

| Payment |           |
|---------|-----------|
| Amount  | ₹8,000    |
| Hours   | 16-20 hrs |

## 2.2 Apply on Form - Google form, typeform etc((Using Hyperbrowser/Browser use/LLM Model APIs)

### Scope

- Detect standard job application forms.
- Auto-fill forms using the user's profile, resume, and saved answers to common screening questions
- Upload the correct resume variant per role family

(+91) 8587-030276  
(+91) 9599-062587

hello@ mkixventures.com  
mkixventures.com

New Delhi, Delhi,  
110003

- Solve standard screening questions using the user's stored answer bank; flag novel questions for user review
- Log every submission with a screenshot + confirmation ID for traceability
- Handle session expiry, retry failed submissions, and alert the user on terminal failures

### Deliverables

- Form auto-fill agent covering LinkedIn Easy Apply + top Indian job boards
- Answer-bank UI where users can pre-answer common screening questions
- Submission log viewer with screenshot + confirmation ID per application
- Failure queue for applications that need human completion
- Custom resume generator per job application – builds a tailored resume using a shared template if provided, or falls back to the default resume uploaded by the user
- Documentation

### Acceptance Criteria

- At least 80% of detected forms are completed and submitted end-to-end without human input
- 100% of submissions have a screenshot + confirmation ID stored for audit
- Failures are surfaced in the user's dashboard within 5 minutes with a clear reason

| Payment |           |
|---------|-----------|
| Amount  | ₹6,000    |
| Hours   | 12-14 hrs |

## 2.3 Apply on Company Website (Using Hyperbrowser/Browser use APIs)

### Scope

- Detect the ATS (Greenhouse, Lever, Workday, Ashby, SmartRecruiters, custom) behind each company career URL
- Auto-fill ATS applications using the user's profile, resume, cover letter, and answer bank
- Upload the correct resume variant + cover letter per role family

(+91) 8587-030276  
(+91) 9599-062587

hello@ mkixventures.com  
mkixventures.com

New Delhi, Delhi,  
110003

- Handle CAPTCHAs via a third-party solver where legally permitted; pause and notify the user otherwise
- Log every submission with a screenshot + DOM snapshot + confirmation number
- Queue failed submissions for human completion with a clear failure reason

### Deliverables

- ATS detector covering the top 6 ATS platforms used by Indian / global employers
- Per-ATS auto-apply adapters (Greenhouse, Lever, Workday, Ashby, SmartRecruiters, custom)
- Submission log with screenshot + confirmation ID per application
- Failure queue for applications needing human follow-through
- Custom resume generator per job application – builds a tailored resume using a shared template if provided, or falls back to the default resume uploaded by the user
- Documentation

### Acceptance Criteria

- At least 75% of detected ATS forms are completed and submitted end-to-end without human input
- 100% of submissions have a screenshot + confirmation ID stored for audit
- Unsupported ATS pages fail gracefully and route to the user's manual-apply queue

| Payment |           |
|---------|-----------|
| Amount  | ₹5,000    |
| Hours   | 10-12 hrs |

---

## Milestone 3: Subscription & Payment System (Using PG APIs)

### Scope

- Build agent-specific subscription plans with 1-month, 3-month, and 6-month commitment windows
- Integrate a payment gateway for INR checkouts, including UPI and cards

(+91) 8587-030276  
(+91) 9599-062587

hello@ mkixventures.com  
mkixventures.com

New Delhi, Delhi,  
110003

- Implement one-time and recurring billing logic per agent (each agent billed independently)
- Generate tax-compliant invoices automatically and email them to the user post-payment
- Handle failed payments, retries, and subscription pauses / cancellations from a self-service Billing UI
- Block access to paid agents until an active subscription is verified on every request

### Deliverables

- Subscription plan catalogue (1 / 3 / 6 month tiers) per agent, fully database-driven
- Razorpay checkout integration with success, failure, and webhook handling
- Invoicing module with automatic email delivery
- Billing page inside the app (view plan, renewal date, payment history, cancel / pause)
- Access-control middleware that enforces active subscription on every agent action
- Documentation

### Acceptance Criteria

- End-to-end payment works successfully across UPI + card + failure scenarios in staging
- Invoices are generated and emailed to the user within 60 seconds of payment
- Expired subscriptions are locked out of the agent within 10 minutes of expiry

| Payment |          |
|---------|----------|
| Amount  | ₹4,000   |
| Hours   | 8-10 hrs |

---

## Milestone 4: Admin Login – Approve LinkedIn Requests & Track Users

### Scope

- Build a secure admin login (role-based access, separate from end-user auth)
- Expose the LinkedIn verification approval queue with profile URL, parsed data, and raw scrape evidence
- Allow the admin to approve or reject each pending signup with a reason

(+91) 8587-030276  
(+91) 9599-062587

hello@ mkixventures.com  
mkixventures.com

New Delhi, Delhi,  
110003

- Track number of users signed up, verified, pending, and rejected over any date range
- Show per-user status: active subscription, last login, and agent activity summary
- Provide basic analytics: daily signup count, verification pass rate, and subscription conversions

### Deliverables

- Admin login with role-based access control
- Pending-approval queue with approve / reject actions and reason capture
- User directory with filters (verified, pending, rejected, active subscription)
- Signup tracker dashboard (daily / weekly / monthly user counts)
- Audit log for every admin approval / rejection action
- Documentation

### Acceptance Criteria

- Admin can approve or reject a pending LinkedIn signup in under 10 seconds per user
- All signup and subscription counts on the admin dashboard match the underlying database
- Every admin action is captured in the audit log with admin ID + timestamp + reason

| Payment |         |
|---------|---------|
| Amount  | ₹3,000  |
| Hours   | 6-8 hrs |

(+91) 8587-030276  
(+91) 9599-062587

hello@ mkixventures.com  
mkixventures.com

110003

## Payment Summary

| Milestone    | Description                                              | Amount (INR)   |
|--------------|----------------------------------------------------------|----------------|
| 1            | Authentication & LinkedIn Verification                   | 4,000          |
| 2.1          | LinkedIn Job Post Agent – Connection Request, DM & Reply | 8,000          |
| 2.2          | LinkedIn Job Post Agent – Apply on Form                  | 6,000          |
| 2.3          | LinkedIn Job Post Agent – Apply on Company Website       | 5,000          |
| 3            | Subscription & Payment System                            | 4,000          |
| 4            | Admin Login – Approve LinkedIn Requests & Track Signups  | 3,000          |
| <b>Total</b> |                                                          | <b>₹30,000</b> |

## General Terms

- Payments will be released only after milestone approval, at the end of the month
- Any rework required due to quality gaps may delay or reduce the payout
- Code ownership will remain with the company (Mkix Ventures / IITIIMJobAssistant)
- Strict confidentiality applies across all phases
- LinkedIn and ATS access / credentials to be confirmed prior to Milestone 2 (2.1, 2.2, 2.3)
- All outreach and auto-apply flows must comply with LinkedIn and each ATS's acceptable-use policy
- After successful delivery, maintenance charges will be decided separately
- Payment will be made by Mkix or its affiliated parties to the designated account

- In case a freelancer decides not to continue, they must provide a complete knowledge transfer session to the newly assigned MKIX resource, regardless of the time required.

### **Confidentiality Clause**

All project details, data, code, outreach templates, matching logic, KPI frameworks, user data, and related discussions are strictly confidential and must not be disclosed to any third party under any circumstances. These materials may not be used for personal purposes by any freelancer, employee, or third party associated with Mkix Private Limited. All such content constitutes the intellectual property of Mkix and may not be used without prior written permission from Mkix. Mkix can take legal action if found someone using its strategy, codebase, or user data outside the scope of this engagement.
